

Infection Control and Prevention (IPAC) Support and/or Consultation Process - Elgin and Oxford

BACKGROUND INFORMATION

Community providers are planning for and/or actively resuming or expanding face-to-face services. IPAC knowledge, along with effective and appropriate IPAC measures, are essential elements for minimizing the risk of spreading COVID-19 within various community settings.

Southwestern Public Health (SWPH) in collaboration with Public Health Ontario (PHO) – Regional IPAC Support Team (West) will provide interim IPAC guidance, support and/or consultation within Elgin and Oxford for non-hospital health service providers until a strategy has been developed for community IPAC support in Elgin and Oxford.
